Getting a child's attention is hard enough, but holding it is the real challenge. This exciting series takes young readers to the farthest reaches of the solar system, to every corner of the globe, back to the ancient myths of Greece and Rome, and inside the circuitry in the walls of their homes. Organized by themes such as space and animals, packed with color photographs and specially commissioned illustrations, varied in article type from poems to biographies, and written at the appropriate reading level, this stimulating reference set will build the foundation of a lifelong journey of learning.

RELEVANT AND ENGAGING

More than 500 articles cover the subjects that children study. 800 colorful images bring topics to life.

ACTIVITIES THAT REINFORCE LESSONS

Special features include fun facts and "Search Light" quiz questions that check comprehension while making learning fun.

A CREATIVE APPROACH TO LEARNING

The different styles of articles provide great variety and appeal to beginning readers and learners of English.
